FAQ'S ON WWW.REBELCACTUS.COM

1. WARNINGS AND SAFETY INSTRUCTIONS

It is very important that you read the operating instructions, safety instructions and warnings very carefully. This way you know exactly how to handle the smartwatch and you can enjoy it longer! When in doubt about what we mean, ask your parents.

1.1 HOW DO I MAINTAIN MY REBEL CACTUS SMARTWATCH?

- Keep the smartwatch screen clean and make sure you don't damage it. With the Rebel Cactus screen protector, you protect the screen against scratches and greasy fingers. Know that the screen starts up under low temperature.
- Clean the smartwatch with a soft cloth, just like you would clean your glasses. Do not use water or abrasive cleaning agents.

1.2 SAFE USE OF THE SMARTWATCH

- Pay attention! Do not use the smartwatch to make calls while cycling. Don't get distracted in traffic.
- Switch off your Rebel Cactus in places where there are also mobile phones connected, as in the airplane. On the plane, put the smartwatch on 'flight modus', just like everyone does with mobile phones, Ipads and notebooks. Smartwatches can affect electronic equipment, so they should be off in these places.
- Do not use your Rebel Cactus at petrol stations and car garages or in near flammable materials or chemicals. Use can cause fire. Do not use your smartwatch close to a weak signal or high-precision electronic devices. Radio waves can affect this so that this equipment stops working. Think of: hearing aids, pacemakers and other medical electronic equipment, fire detectors, automatic doors and automation equipment.

YOUR WORLD

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

- Keep the smartwatch away from magnetic cards such as bank cards and other magnetic objects. The radiation can delete card data.
- Do not put the smartwatch near flammable and explosive gases. This can lead to damage and fire.
- Be careful with high temperatures and high humidity. This can cause malfunctions to the smartwatch. Within a temperature of 5 degrees to 35 degrees and a humidity of 35% - 85% Rebel Cactus can be used very well.
- Do not press too hard on the LCD screen. The screen will break and the LCD liquid can leak. If this LCD liquid gets into the eye, it can lead to blindness. If the LCD liquid enters the eye. Immediately rinse the eyes with water (do not rub the eyes!) and immediately visit a doctor for medical treatment.
- Do not destroy or change anything about the smartwatch. It can go leak or cause a malfunction.

1.3 SAFE USE OF THE BATTERY

- Do not charge the battery for more than 24 hours at a time.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

1.4 SAFE USE OF THE CHARGER

- Is the charging cable damaged? Do not use the charger! If you do use the charger, it could cause a fire or electric shock. Always charge the smartwatch during the day and remove the plug from the socket at night. Never leave the plug alone in the socket.
- Always make sure your hands are dry when you touch the charger, the cord, or the wall socket. Wet hands will give you an electric shock.
- Do not place heavy objects on the charger cord and do not modify the cord. Doing so can cause an electric shock or fire.
- Always remove the plug from the socket if you want to clean the plug of the charger.
- Do not pull the charger cord, it may cause an electric shock or fire.
- The Rebel Cactus Play is not suitable for children under 4 years old.

Damage cause by the above does not fall within the warranty conditions.

FAQ'S ON WWW.REBELCACTUS.COM

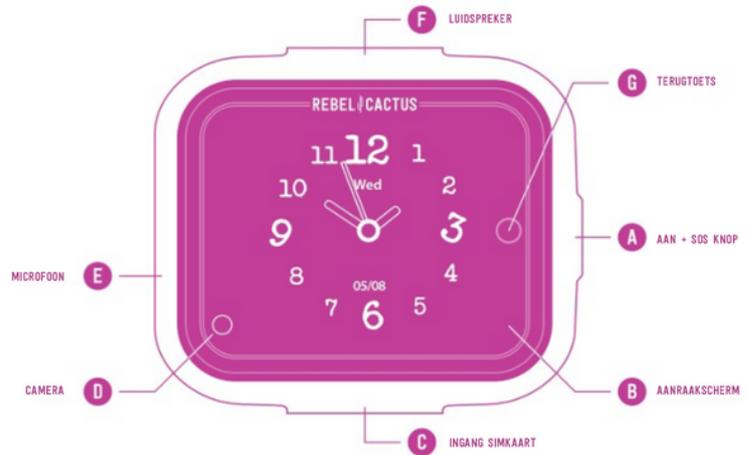

2. INSTRUCTION MANUAL REBEL CACTUS SMARTWATCH

2.1 WHAT DO I FIND ON THE REBEL CACTUS SMARTWATCH?

- A. On button & SOS button

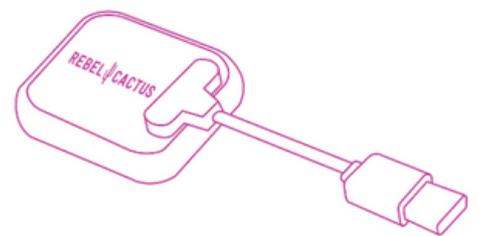

* Turn off the smartwatch via settings, then 'shutdown', or via the parent app.

- B. Touch screen
- C. Input for the SIM card
- D. Camera
- E. Microphone
- F. Loudspeaker
- G. Back key

2.2 CHARGING

- Place the end of the charging cable on the copper dots on the back and bottom of the Rebel Cactus. This is very easy because it is held in place by magnets. Then plug the cable with the USB end into a USB port of a 220V charger or a USB port of a computer. As soon as the indicator on the screen of your Rebel Cactus is 100% colored, the battery is fully charged.
- Charge the battery fully the first time you use your Rebel Cactus.
- Pay attention! Connect the charging cable correctly.
- Pay attention! Turn off the smartwatch while charging and don't use it.

YOUR WORLD

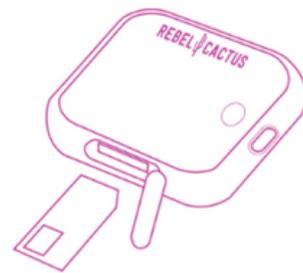

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

2.3 INSERT AND ACTIVATE THE SIM CARD

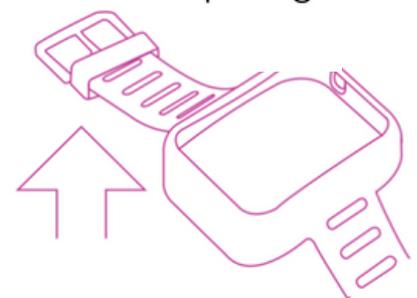

- Pay attention! This must be a nano format SIM card.
- Open the cover on the bottom of the Rebel Cactus, by gently opening the cover and turning it to the right. Place the nano SIM card in the watch, with the copper chip towards the top and the beveled edge at the top right.

- Close the cover and press it firmly. This is very important for the water resistance of the watch. If for whatever reason the cover has broken off, the watch can absolutely no longer come into contact with water. The cover must then be repaired first.

2.4 PUT THE CLOCK INTO THE WATCH STRAP

- So, now that the SIM card is in the smartwatch, you can put the Rebel Cactus into the strap. You do this from bottom to top. Make sure that the on/off button of the clock on the right fits into the recess of the strap.

DISCOVER
YOUR WORLD

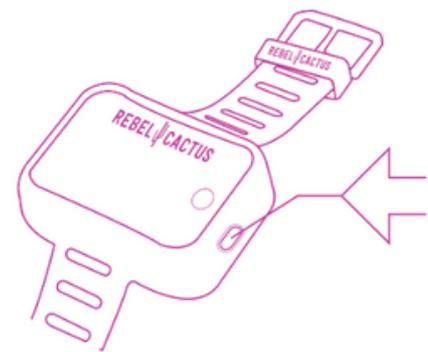

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

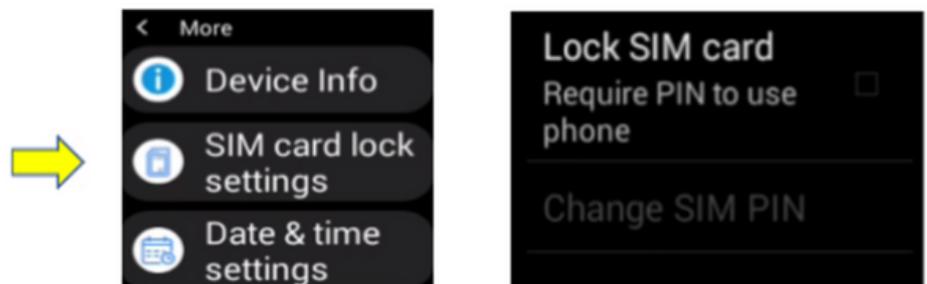

2.5 POWER ON!

- Press the button in the center-right for three seconds and turn on the Rebel Cactus. The screen says 'enter pin'. Enter the PIN code of the SIM card. Move with your fingertip or stylus pen in the empty input field and a small keyboard will appear. As soon as you have entered the 4 digits of the PIN code, press the button at the top right. You can also press the screen, the down arrow, at the very bottom left. Then you'll see that the screen changes. Now press 'OK' at the bottom left of the screen. If you take this a little longer, the Rebel Cactus will automatically go to the home screen.

2.6 DELETE THE PIN FROM THE SIM CARD

- The PIN code on the SIM card is very inconvenient to use, so change this code. You do that as follows. On the smartwatch, go to 'settings', then to 'SIM card lock settings', 'unmark lock simcard' and enter the PIN code again.

DISCOVER
YOUR WORLD

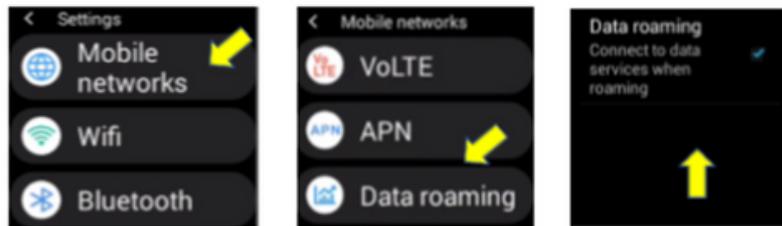

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

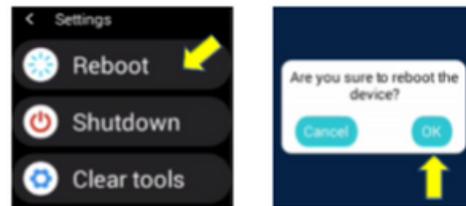

2.7 TURN ROAMING ON AND RESTART

- Now go again to 'settings', then to 'mobile networks', then to 'data roaming'. In data roaming, check 'data roaming'.

- Now go to 'settings' again and press 'reboot'. The smartwatch will now reboot.

2.8 ACTIVATE SIM CARD

- So! Now you can activate the SIM card. Look for that in the booklet that supplied with the SIM card. Check whether the smartwatch is connected to the mobile network. You can do this by sending a text message to another number or calling a phone number from the smartwatch.

FAQ'S ON WWW.REBELCACTUS.COM

2.9 MAIN SCREEN REBEL CACTUS

- Swipe at the top of the screen from top to bottom, then you will see the following symbols from left to right (if they are ON):

1. Spotify

2. GPS

3. Bluetooth

4. Wifi

5. Signal strenght

6. Battery strenght

7. Digital time display

8. Adjust volume

*To see point 8 you have to swipe from the bottom to top at the bottom.

2.10 SCREEN 2 REBEL CACTUS

- **Contact:** press this icon (example on the next page), here you can find up to 10 contacts. You add these contacts via the RC Tracker app, and you also manage them via this app. Are the contacts already there? Select a number and press a number to make a call.

DISCOVER
YOUR WORLD

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

- **Chat:** press this icon to chat with the parent via the app, you can send a (voice) message or send a photo.
- **Phone:** here you can type in and find any telephone number. Therefore, not preprogrammed calling numbers.
- **Friends:** press this icon if you want to connect with a friend that also has a Rebel Cactus smartwatch. How nice is that! Both smartwatches will vibrate and the portrait of your friend is illuminated. You can add up to four friends. Tap on the portrait of your friend to send (voice) messages and photos to each other. Do you want to delete the message(s)? Then press a little longer on the message. If you want to remove a friend from your smartwatch, press longer on the portrait. But that won't be necessary, right?
- **Video player:** with the video player you can watch videos! Indicate what you like and the coolest videos will be selected for you.
- **App Store:** here you will find all apps that are on the smartwatch. Turn them on or off via the RC Tracker app.

2.11 SCREEN 3 REBEL CACTUS

- **Video call:** select a contact, press this contact to make a video call.
- **WhatsApp:** read more at 2.12 WhatsApp.
- **Camera:** press the icon and you can take a photo.
- **Gallery:** press here to check your photos, share or delete them.
- **Education:** press the icon for educational calculations' memory games.

FAQ'S ON WWW.REBELCACTUS.COM

2.12 SCREEN 4 REBEL CACTUS

- **Instagram:** do you have an Instagram account? Then log in. You can do everything with Instagram on the smartwatch that you do normally with Instagram. Do you not have an account? Ask your parents and always create an Instagram account with them together.
- **TikTok:** do you already have a TikTok account? Then log in. Creating a new account on the smartwatch is not possible. Do you not have an account, and would you like to? Ask your parents and always create the TikTok account with them together. Make sure that the 'Family Safety Mode' (privacy settings) is set.
- *You cannot (yet) create, edit and post short videos with your Rebel Cactus. That will come in the future.
- **Games:** here you see a list of all the games you want to play.
- **Spotify:** if you have a Spotify subscription, log in and play your playlist. Do you have a Wifi connection? Then download your playlist, so that you can also listen to the playlist when you are offline, for example, while playing outside.
- **Musicolet:** don't have Spotify? Then use Musicolet. Send MP3 files to the smartwatch via Bluetooth.
- You will find four nice audiobooks in the folder 'audiobooks'.

Do you not want certain apps on the smartwatch?

You can turn apps on or off via the App Store in the RC Tracker app!

DISCOVER
YOUR WORLD

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

- **WhatsApp:** do you already have WhatsApp? Then log in. Don't you have WhatsApp yet? Ask your parents and always create a new account together. With WhatsApp on your smartwatch, you send messages. For calls and videocalls use the Rebel Cactus Tracker app and the watch.
- **TIP:** creating contacts in WhatsApp is unlimited, but it is not that easy. Give your 06-number and therefore be invited. That way, you don't have to enter anything yourself. You can also add contacts by scanning your WhatsApp QR code, without entering anything on the smartwatch yourself.

2.13 SCREEN 5 REBEL CACTUS

- **Settings:** check all system settings here; mobile networks, wifi, Bluetooth, sound strength/volume, screen brightness, screen layout, screen timeout, restart, shutdown, clear cache, device info, date, and time, language. See also chapter 3. Settings on the smartwatch, for a more detailed explanation of all
- **Messages:** here you will find incoming text messages and create/send text messages.
- **Steps:** the step counter; yay! Keep track of how many steps you have walked per day.
- **QR code:**
 1. AppCode: do not use this QR code.
 2. RegCode: scan this QR registration code if you want the smartwatch connect to the Rebel Cactus Tracker app.

FAQ'S ON WWW.REBELCACTUS.COM

3. SETTINGS ON THE SMARTWATCH

Pay attention: these are the settings that you set on the smartwatch itself and not via the RC Tracker app. Settings via the RC Tracker app is under 4.

3.1 MOBILE NETWORK

- Turn on roaming for the mobile network. Pay attention! This may incur costs, especially outside the EU.

3.2 WIFI

- Go to settings and turn on the wifi. This will now search for networks. Select the desired network, press and enter the password (tick password visible) and press connect.
- **TIP:** connect the smartwatch to a parent's hotspot. Does the subscription in the Rebel Cactus not have unlimited data, and is there no wifi in the area? Then connect the smartwatch to a parent's mobile phone via a hotspot connection. This way the child always has data, as long as it is close to the parents.

3.3 BLUETOOTH

- Turn on the Bluetooth connection. The smartwatch will now scan to search for other Bluetooth devices. Select the one you want the device with. After being paired, music can be listened to via this external device, such as wireless headphones, earbuds, or a speaker. When you have finished listening to music, turn off Bluetooth again, this makes a difference in battery usage.
- Pay attention! If you want to pair another device, you must first unpair the paired device, before the smartwatch, starts scanning for new devices.

FAQ'S ON WWW.REBELCACTUS.COM

3.4 CALL VOLUME

- Here you can adjust the volume: media, alarm, calling.

3.5 BRIGHTNESS OF THE DISPLAY

- Press the firefly/light to determine what brightness you want to set up.

3.6 SLEEP

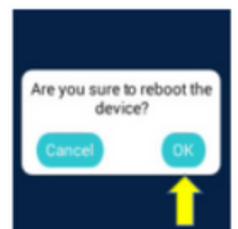

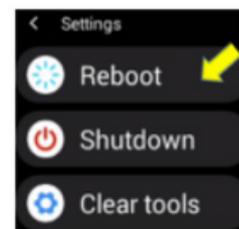

- Determine how long it takes for the watch to go to sleep.

3.7 REBOOT/

- Press 'OK' and the smartwatch will reboot.

3.8 SHUTDOWN

- Make sure the smartwatch is off before charging it (this is not necessarily necessary, you can also charge the smartwatch when it is on, but off is the fastest way). You can turn off the smartwatch in two ways:
 1. Via the Rebel Cactus Tracker App. Go to settings and press the 'turn off the watch' button.
 2. On the smartwatch. Go to settings and press 'shutdown' then 'OK' and the smartwatch will turn off.

DISCOVER
YOUR WORLD

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

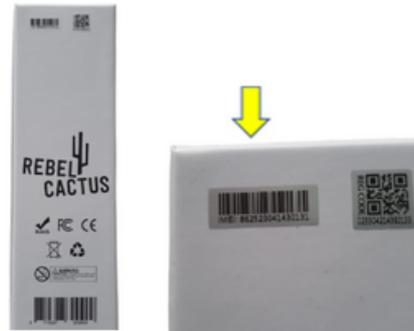

3.9 CLEAR TOOLS

- **Clear tasks:** delete all tasks.
- **Clear cache:** empty the cache.
- **File explorer:** here you will find the locally stored on the smartwatch itself files, such as MP3 music files.

3.10 MORE

- Device info.
- Wireless update, IMEI-number, and software.
- For a wireless update, you can check whether you have the latest version of the software. The smartwatch indicates this when you press it. If you do not have the latest software version, the smartwatch will update this version itself.
- **TIP:** make sure your wifi is on.
- Under build number, you can see which version of the software is installed. At the bottom, you will find the IMEI number of the watch. This number is the same as the IMEI sticker on the back of the watch box.

- **Simcard lock settings:** here you can disable the PIN-code on the SIM card. We certainly recommend that you do that! Do reboot the watch immediately after doing this (3.7).
- **Date & Time settings:** choose your date type and time (zones) indication.
- **Language:** scroll through the page to set your preferred language.

FAQ'S ON WWW.REBELCACTUS.COM

4. SETTINGS VIA THE RC TRACKER APP

Pay attention: these are the settings that you set on the smartwatch via the RC Tracker app, so remotely.

4.1 ME

Under 'me' you will find 'personal information', 'change password', 'linked smartwatches' and 'delete account'.

Personal info

- Here you will find all information about your account. You can customize your avatar and your details.

Change password

- Here you can change the password of your RC Tracker account. Pay attention! This is not the smartwatch password.

Device list

- Here you will find all smartwatches that are linked to your account. Here, you can also unpair your child's smartwatch or add a new one. You can also check the watch ID. If this ID is not the same as the ID on the sticker, the watch will not be able to connect to the app.

Delete account

- Here you delete your account. But be careful, once deleted you cannot use your account or retrieve any data again.

Exit

- This may go without saying, but here you log out.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

4.2 FEATURED FEATURES

Here you will find all functions of the smartwatch that you can set remotely.

Video call

- Here you can make video calls with your child.

Health

- Here you can see how many activities your child has done, such as a number of steps, running, and/or sports. You can also see how many times your child has rolled over in bed and how many calories he or she has burned. These two data are for reference only. You can check the number of steps of the last 3 months.

Message

- Send voice messages or a photo to your child's smartwatch here. You can also check all messages sent to the watch, such as SOS messages.

Alarm

- Set the times here that you want the alarm to go off. For example, waking up or a certain time when you have to leave to catch the bus.

Rewards

- Here you can send a heart to your child. For example, if you are proud of him or her or he or she has done something good. This heart then enters the smartwatch.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

Remote camera

- Here, you can remotely control the camera of your child's smartwatch. Press 'remote camera' and a photo will be taken via the smartwatch, without your child knowing.

Timetable

- This is a weekly schedule in which you can set important appointments. You will be notified before the event will take place. This way you will never be late, and you will not forget anything important.

SOS number

- Here you can enter 3 numbers to which the watch will call as soon as the SOS button is pressed. If the first one doesn't answer, the second and third numbers are called.

Location update schedule

- The update interval indicates how often you receive tracking updates about your child's location. To save battery, it is recommended to set the update interval to 10 minutes or 60. You can choose from 'normal mode', 'power save mode' and 'sleep mode'.

Contextual model

- Here, you can choose what kind of sound the smartwatch makes when it is called.

Family members

- Here you will find all family members linked to the smartwatch. Authorize other family members who also want to connect the smartwatch to the app by letting them download the RC Tracker app.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

Do not disturb

- Via the RC Tracker app, you can set per day via 'do not disturb' from what time to what time the smartwatch should be switched off. Handy for school days. For example, have the smartwatch turn off at 8:30 AM when school starts and turn it back on at 3:10 PM when school ends.

Phone book

- Here you can add and manage all contacts of the smartwatch.

SMS alerts

- Here you can activate that you will receive a text message when the battery level is low or the SOS has gone off. As a parent, you know that the watch is almost empty and that you can no longer reach your child.

Set Local Base Station

- Select your local base station here.

Find watch

- Clicking here will activate a sound in the watch. That way you can easily find it. Click on it, the watch will ring for 1 minute, so you can find it. Press any key to stop the sound.

Functions restrictions

- Here you can choose whether you want your child to be able to call all numbers and whether the smartwatch can be tracked or not.

Timer switch

- Here you can set that the smartwatch should be scheduled or restarted.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

Language

- Set the language of the smartwatch here. All Western European languages; Dutch, English, German, Spanish, French.

Time zone

- Select the correct time zone here.

Night power saving

- If you activate this, the watch will be disconnected from the network between 10 p.m. and 6 a.m.

Receive watch text messages

- Here you can see all messages that arrive at your child's smartwatch.

Reject strange calls

- Here you can block strange phone numbers. So only the phone numbers in the phone book can call the watch.

Set watch wifi

- Set the wifi connection of the smartwatch here. This way, your child does not have to do this on the smartwatch itself.

App Store

- Here, you can switch certain apps of the smartwatch on and off. As a parent, you can decide for yourself what you want or don't want on your child's smartwatch.

**DISCOVER
YOUR WORLD**

FOR MORE INFORMATION CHECK OUT
FAQ'S ON WWW.REBELCACTUS.COM

Remote shutdown

- By pressing here, you can switch off the smartwatch remotely.

Restore default settings

- Here, you can reset the settings on the smartwatch to the factory settings.

Remote restart

- Pressing this will restart the smartwatch.

4.3 ACCESSIBILITY

Phone book

- Here, you can add all contacts with whom you want the child to be allowed to call. Boyfriends, girlfriends, grandpa, and grandma.

Chat

- Send nice small text messages or photos to the watch from this app.

Call number

- Enter the mobile phone number of the child and with one push of a button, you can call the child.
